

Custom Engineered Solutions

Avery Dennison® Mattress Fastening System

Elevating Brands and Accelerating Performance Throughout the Global Retail Supply Chain

Accelerate Performance - Custom Engineered Solutions

Our team of innovation experts, partner with customers to develop, deliver and integrate solutions that overcome customer and industry challenges while accelerating their performance throughout the global retail supply chain.

Securely Fasten Mattress Foam Layers Without Adhesive

In just one quick click, the Avery Dennison Mattress Fastening System attaches multiple layers of foam, fastens pocket springs to encasements and secures flanges, faster than alternative glue and adhesive methods.

The EHD T-End fasteners are designed to replace messy sprays, hot melt glues and water based adhesives used in the mattress assembly process. No mess. No curing time. No odors.

Reduces Costs for Manufacturers

- Fasteners secure layers simultaneously, yet allow easy repositioning to improve quality and reduce waste
- Fasteners are less expensive than sprays, hot glue and other traditional adhesives

Greater Consumer Satisfaction

- No shifting or crackling problems caused by failing adhesive which result in consumer returns
- Fasteners are odorless, unlike hot glue and other traditional adhesives

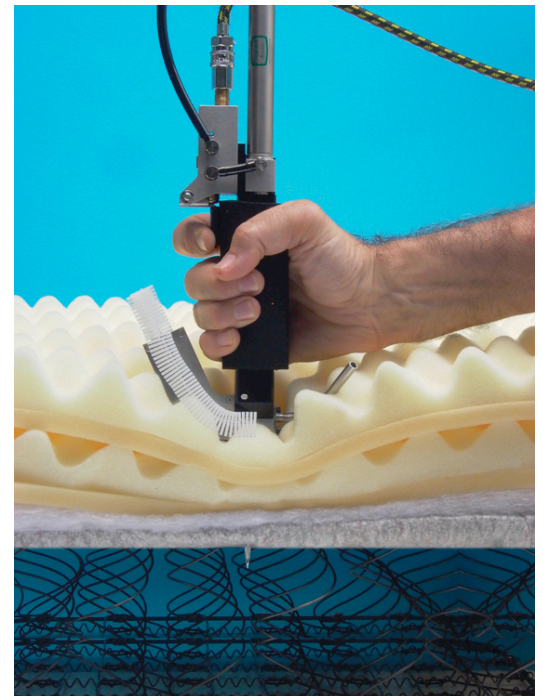

Eliminates Manufacturing Bottlenecks

- Curing time associated with glues and adhesives is eliminated, increasing faster movement of your product to the dock
- Fastener clips are quickly and easily replaced, requiring less assembly down time than the clean-up involved with messy adhesives

Elevating Brands. Accelerating Performance.

Experience Avery Dennison supply chain solutions at our worldwide Customer Design and Innovation Centers. For more information on the Avery Dennison Mattress Fastening System or to schedule a tour of our Customer Design and Innovation Centers, please call 800.543.6650, prompt 5, or e-mail rbis.solutions@averydennison.com.
